

## **About Prince A. Nimrod**

Mr. Prince A. Nimrod stands out as a dedicated and skilled engineer whose impact at the National Road Fund remains priceless. Mr. Nimrod is an accomplished professional with over 19 years of extensive experience in the engineering field, working with the Ministry of Public Works and the Liberia Civil Aviation Authority.

Currently, he serves as the Chief Engineer of the National Road Fund of Liberia after many years of serving as the Program Officer of the NRF, a role where he performed duo tasks of overseeing the technical aspects of the NRF as well as program activities. In his current role as Chief Engineer, he is responsible for ensuring that road projects funded by the NRF meet technical specifications, compliance standards, and safety regulations.

Mr. Nimrod earned a bachelor's degree in civil engineering as well as a Masters of Business Administration (MBA), all from the University of Liberia. Mr. Nimrod honed many professional certificates and development courses from different parts of the world, including Japan, the USA, Tanzania, Zimbabwe, and Italy. These certificates include Road Safety Audit from the International Road Federation in Washington, DC, USA; Road Management and Maintenance in Japan; Employment Intensive Investment in Turin, Italy; Aerodrome Inspection in Harare, Zimbabwe; and Road Asset Management for Senior Executives and Decision Makers in Arusha, Tanzania, amongst many others from the United Nations in Liberia.

Mr. Nimrod's experience encompasses not only technical expertise but also the ability to mentor junior engineers and foster a smooth work environment. His contributions have consistently led to enhanced operational efficiency and successful project outcomes.
